

Outlook 2007 Level 1

Audience	This course is intended for people who are familiar with Windows basic features and want to develop an understanding of Outlook Mail. Students should have taken a Windows Level 1 class or have equivalent experience. No experience with Outlook is required.
Description	This course uses a combination of lecture, instructor demonstration, and when possible hands-on practice and independent exercises to familiarize students with Outlook's mail and calendar features. In Mail, students create and read mail, prepare and set special mail features, handle file attachments, and manage mailbox folders. In Calendar, you schedule and modify appointments, create and modify recurring appointments, and plan and modify meetings.
Objectives	After completing the class, students should be able to: <ul style="list-style-type: none">■ List the main features of Outlook Mail■ Read, delete, reply, and forward mail■ Address, create, format, edit, and send mail■ Set message priorities and special features for mail■ Attach and work with file attachments■ Manage the mailbox address book and folders■ Display and print the calendar by day, week, and month■ Schedule and modify appointments■ Create and modify recurring appointments and events■ Plan and modify meetings and respond to meeting request
Length	1 day
Beyond this Level	When you have successfully completed this class, the next class you should consider is Outlook Level 2. Level 2 introduces such topics as automating e-mail; customizing Outlook; signing and sealing messages and other advanced e-mail functions; and using advanced calendaring features. Additional topics such as managing tasks and contacts, journaling, storing messages, and planning a meeting may also be covered depending on student experience and interest. Be sure to leave time for practice before registering for the next level.
